

This is just the beginning of multiple attacks on our Wisconsin state "no call laws" that are stronger than the current federal laws. I personally want to continue to keep my home phones quiet! I must protest, I insist on taking a strong stand and to inform the FCC to leave our Wisconsin state law alone!

The Wisconsin's No Call List has improved the quality of my life, in my home where I find asylum from the fast paced world outside my doors. I am entitled to my privacy!

I cannot emphasize enough and make it clear enough to the Federal government that I do not want to be exposed to telemarketing rhetoric from businesses or its affiliates simply because I have had or not even had contact with the business(s).

This type of action by the FCC steers my thought pattern to "what's in it for them?" Big Brother needs to focus its attention on more pressing and pertinent matters of our society and its federal communications regulations.

I personally need to make certain that the FCC puts consumers, not big telemarketers, first.
